

## ENVIRONMENTAL POLICY

Transpacific Industries Group Ltd is the leading provider of integrated industrial services, waste management, resource recovery and transport solutions to customers across Australia and New Zealand with a particular focus on the solid, liquid and hazardous waste management markets.

The Company is committed to providing environmentally beneficial services, products and solutions to customers and the general public that result in resource recovery, conversion of waste to energy, and the reduction, recovery, recycling and re-use of waste materials.

The Company strives to achieve a clean and healthy environment by providing services, conducting operations and manufacturing products that minimise harm to the environment. The Company is protective of natural resources and has a goal to accomplish a net positive environmental impact of its overall operations.

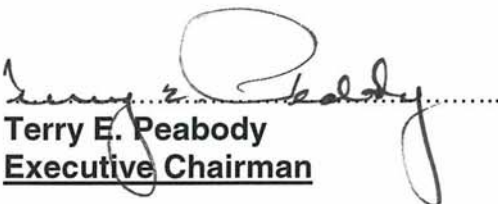

Our National Integrated Management System incorporates the requirements of ISO 14000 and provides the mechanisms that allow us to seek continuous improvement in performance with consideration of evolving scientific knowledge, best practice and community expectations.

For the benefit of the environment, our employees, stakeholders and the community, the Company strives to:

- Comply with all applicable environmental laws, regulations, licences, consents, standards and site requirements and, where adequate laws do not exist, adopt practices that reflect the Company's commitment to environmental compliance, excellence, and community expectations;
- Adhere to the principles of sustainable development, pollution prevention and life cycle management;
- Establish measurable objectives, targets and milestones by which we can continuously monitor and improve our environmental performance;
- Maintain communication channels with the community and regulatory authorities;
- Consider environmental factors in the decision making process;
- Investigate and adopt reasonable and practical measures that mitigate climate change;
- Develop and implement water, energy and material efficiency programmes to meet community needs;
- Provide employees with the training, information, resources and responsibilities necessary to achieve environmental objectives and targets;
- Aim to reduce, recover, recycle, or re-use waste in all aspects of our business;
- Evaluate current environmental technology and processes for best practice; and,
- Continuously improve our commitment to environmental management through a process of innovation, review and revision.

In particular, our goal is to utilise best practice for the reduction of climate-modifying emissions. This commitment is addressed in detail in **TIG COR P 0049 Greenhouse Gas Emissions Policy**.

The display at our work locations of this signed policy confirms the Transpacific Industries Group Ltd Board of Directors commitment to making Transpacific Industries Group Ltd workplaces environmentally aware and considerate, thus ensuring the achievement of corporate responsibility, statutory compliance and demonstrated due diligence.

**Terry E. Peabody**  
**Executive Chairman**
